RHINOS Flyland - Play Game

Save World

Introduction

RHINOS FLYLAND is a game built on blockchain that allows players to earn income by breeding, training, battling, and trading digital pets, called RINOs. The more powerful RINOs you own, the more money you will make by selling them on the Marketplace.

RHINOS FLYLAND was initially divided into two tribes - Hunters and Monsters. The Hunters own RINO warriors with supernatural strength and intelligence (we call them RINOs). On the island, ancient gems were discovered and they are extremely valuable to both tribes. Our loyal RINOs' mission is to help Hunters fight back those deadly space monsters.

Rescue dozens of one-of-a-kind Rhinos, each with their unique skills! Treat RINOs well and build farms to feed and evolve them into warriors to expand your collection and battle them. The key to victory is obtaining rare species to gain advantages in battle.

Earn RHO token with Rhinos Flyland

- Collecting, breeding, evolving, battling RINOs
- Selling in-game items on auction marketplace
- Selling virtual lands

You can directly trade RHO on Pancakeswap for BNB and withdraw Fiat on Binance.

Mission

- Our mission is to make blockchain games more immersive and create legitimacy and permanent value.
- In addition, we will donate 50% of the profits to support global NGOs that protect wildlife around the world.

Vision

- If you are in search of relaxation, RINO FLYLAND is for you. It is delightfully satisfying to breed, hatch and raise rhinos with an array of elemental abilities, and then enter them in battles against space monsters.
- Plus, this game helps players generate multiple income streams like a local job that pays the bills. RINO FLYLAND can be played with a smartphone and an internet connection.

We support wildlife protection worldwide by donating and raising awareness among players.

Rhinos Game Play

Introduce

Since this is RHINOS FLYLAND, you will need RINOs to get on the island to start hunting. Each player can own up to 5 RINOs based on the tiers.

- Tier D Hunter (owns 1 RINO)
- Tier C Hunter (owns 2 RINOs)
- Tier B Hunter (owns 3 RINOs)
- Tier A Hunter (owns 4 RINOs)
- Tier S Hunter (owns 5 RINOs)

New Hunters will choose one basic RINOs with one element to hunting for all the gems hidden in these expansive worlds. If you wish to climb the leaderboards faster, you can purchase Vip packages to unlock another RINO.

Five elements of RINOs:

- Lightning (Speed)
- Nature (Guide)
- Water (Magic)
- Fire (Strength)
- Earth (Endurance)

Each RINO has four basic stats: (Strength, Endurance, Magic, Speed)

- The stats depend on the element groups and equipment (weapons → strength, shield → Endurance, Wings → Speed).
- In addition, complementary elements increase the number of stats for RINOs in the match.
- In contrast, a contradictory element will fight, repel, reject, conflict against the other.
- For example, the RINO of Fire would be succeeded by the one of Water (which overcomes Fire).
- Stats also increase with pet level. RINO has ten zones with twenty levels in each zone.
- RINO level 20 will level up and unlock a new breed of RINOs.

Rhinos Marketplace

Starters

- Sell basic RINOs in 5 elements
- Sell equipment and weapons.
- Sell boosters.
- Sell habitats and buildings for the island.

Rare product

- Sell RINO egg pieces.
- Sell advanced equipment.
- Sell luxury habitats and buildings for the island.
- Sell boosters.
- Sell hybrid RINO breds.

Fighting and Hunting

- Pokémon-style card battle game where players have to destroy all monsters in the battle, each match has five turns.
- Every combat will cost players less energy. You only get 50 energy points per day.
- Level-up to unlock special rewards
- Pass five levels to get one turn to hunt the boss.
- Hunt the boss to get RINO egg pieces, rare equipment.
- Battle RINOs in the PvP Arenas
- Finish daily quests
- All winners are rewarded with RHO Tokens.

Gems (Resources)

- The Chief Hunter level will be able to dig for gems twice a day with a fixed timeframe.
- The reward is resources to level up RINOs.

God Island (Hunt equipment)

- The Chief Hunter level and Supreme Hunter level: can hunt random pieces of equipment.
- There are 02 chances to hunt rare equipment and RHO Token per day.

Spring of God (delegated experience)

- Where you can delegate your RINOs to increase experience.
- Where you can chat with other players.
- Each time you enter the Spring of God, you get 1 point. Accumulate 5 points to participate in the Lucky Spin, and receive rare gems.

Space Arena (PvP battle)

- Only Supreme Hunters can join the Space Arena
- Hunters from all over the world compete for the top prize every month.

Rhinos Island (breeding RINO)

- Chief Hunters with 3 RINOS can activate the island-building package. (You must purchase an island activation pack to be able to breed RINO hybrids)
- Combine RINOs of different elements, to breed unique hybrids and expand your collection.
- Beat the boss to collect materials or you can buy them at the Marketplace.

How to earn RHO Token with Rhinos Island

You can make money on your island: the more RARE RINOs you have, the more people will visit, the more RHO TOKEN you will earn. Entrance fees are paid in RHO tokens.

Ancient Cave (hunt for rare RINOS eggs)

When you own 5 RINOs to achieve the title of Supreme Hunter, you will get one turn to hunt in the Ancient Cave every day. Ancient Cave is where you get high-value items when killing monsters and bosses. Team-up is available at this level.

Breeding and Earning RHINOS FLYLAND

RINO can be hybridized and bred after each breakthrough level. Baby RINOs can support stats in the match or be sold on the Marketplace, depending on the level of rareness. What is different is that each RINO crossbreed has a maximum of 10 breakouts and breedings.

If you have rare purebred RINOs, you can give away and breed with other players' RINOs.

RHO Token

The ultimate goal is to support organizations that protect wildlife from extinction around the world. All 50% of the transaction fees collected from Marketplace will go to these organizations in most legal matters.

Use Case

Governance: Rhinos Flyland aims to empower players and RHO token holders. Players and Holders can participate in proposing or voting on important game changes.

Staking: RHO holders will receive rewards from the Rhinos Treasury.

Payment: players can use RHO to pay for in-game items or sell BNB to withdraw fiat.

Allocations and Unlock schedule

Allocations	Total RHO	%	Unlock schedule
Play to earn	30,000,000,000,000	30	Locked until mainnet
Airdrops	5,000,000,000,000	5	Unlocked
Community Development	20,000,000,000,000	20	Locked until mainnet
Team	10,000,000,000,000	10	4 years vesting, 1 year cliff, linear monthly unlock starting from the 2nd year.
Angle Investment	10,000,000,000,000	10	3 years vesting, 1 year cliff, linear monthly unlock starting from the 2nd year
LPs Pancakeswap	25,000,000,000,000	25	Unlocked

Roadmap

Q2/2021

RHINOS FLYLAND Team Formation. \$100,000 raised from Angel investors.

Q3/2021

Launch of the whitepaper. Conduct airdrops and list RHO on Pancakeswap. Community development. Finalize the Rhinos Flyland design.

Q4/2021

Launch of staking, Rhinos Flyland, and Marketplace Beta. Connect Partners and develop our community. To be listed on a Top 5 Centralized Exchange.

Q1/2022

Allows players to participate in Rhinos Flyland Beta for testing as well as import airdrops from the game. Experiment with buying and selling items on the Marketplace.

Q2/2022

Rhinos Flyland officially released the PC version.

Q3/2022

Rhinos Flyland officially released the Mobile version. Contact NGOs and plan the implementation of funding packages.

Team

CEO - Founder

- Aaron William: Before venture capital, William holds Master's and Bachelor's degrees in Computer Science and Artificial Intelligence from MIT. He completed research in knowledge acquisition for artificial general intelligence. William is also an experienced technology venture capital investor and a corporate venture investor. William first started investing in Bitcoin and over 100 technology startups since inception.

CTO

- Brendan Gardiner: Having been involved in digital technologies for more than three years, with extensive experience launching cybersecurity ventures spanning hardware, software, and professional services in networks like Bitcoin and Ethereum.
- Hrithik Roshan: Roshan has eight years of experience in game programming, QR code, and mobile applications at Playstation. He worked on iOS and Android updates to popular existing Disney franchises such as Temple Run and Where's My Water.

Game Designers

- Souta Kobayashi: 5 years experience in the field of game development and graphic design. Been internationally and nationally recognized for his work in games development at Sony, Samsung, and Nintendo. Kobayashi has touched every aspect of game development, from UI to Sound, Quality Assurance to VFX and PR/Marketing, etc.

Advisors

- Shigeaki Takahashi: Takahashi has ten years of experience implementing game mechanics and core programming at Nintendo. He believes that it is time for games on blockchain to become the future and empower players.
